

“Lake of Bays” Antique Car & Boat Show

Report: Don Crossland & Rita Adams

Don Crossland with his 1936 LeeJay Electrol.
It develops 1 hp on a 12 volt battery
or ½ hp on a 6 volt.

This event was held in the scenic little village of Baysville. The riverfront was lined with Antique & Classic boats from Lake of Bays & vicinity. The streets were lined with more than 100 cars. On display was an impressive cross section of vintage, classic and antique vehicles.

Entertainment was provided by the Northern Lights Steel Orchestra. The Show closed with a parade of antique & classic boats led by the *S.S. Bigwin*. The flotilla was piped away from the docks to the cheers of the appreciative audience.

Our MLAOC display of vintage outboards was coordinated by Steve Silverthorn and Don Crossland with an able assist from Peter Doey, Steve Waites and Eric Tozer .

It was a great day with plenty of interesting cars and boats to see and fun entertainment to be enjoyed.
