

# Settler's Day in Bobcaygeon- June 10, 2018

Report: Glenn Weigel

Photo: Glenn Weigel & Ron Stevenson

It was a perfect sunny day for the Settlers Day event in Bobcaygeon... Not too hot, not too cold... Just right... Instead of Goldilocks, it was more like the three bears minding the tent (all of them were Yogi!!!) We had our Club President, Ron Stevenson, with us as well as Eugene Munson and Yours Truly (Glenn Weigel) set up shop and put on a darned good MLAOC display of motors to provide some additional interest for the Show.

There were not as many vintage cars at the event as in the past. They limited it to cars from the forties or earlier. There were more displays that were family oriented. There was definitely a lot of younger kids present, many of whom were fascinated with our collection of "Old Iron". We thoroughly enjoyed the opportunity to meet with a lot of folks that just loved our display.

Glenn Weigel & Gene Munson settled in at Settlers Day.

Ron Stevenson in the middle of motor heaven.

A sparkling 1950's Jonson QD. Outstanding restoration.

Nicely restored motors from the '20's- 30's- 40's & 50's.

Ron's 1909 German EFFZETT Row Boat Motor.
