

Settlers Day in Bobcaygeon- June 9, 2019

Report & Photo's: Glenn Weigel

It was a beautiful day in Bobcaygeon for the Settlers day event. The theme was a bit more family oriented with a petting zoo and arts and crafts for the kids. There was still plenty to see for the adults with many historical displays open in the village. Despite being a low key event, there was plenty of traffic coming through our display of "Old Iron". People shared many stories with us that brought back fond memories...

Thanks to Gene Munson, Mike Ounjian and yours truly for making our display a success. Also a special thanks to Owen Aho for lending us a few of his motors to add to the "wow" factor...

L-R: Mike Ounjian & Gene Munson. That's a Chris Craft "Commander" 10 hp next to Mike & a Clarke Troller by Gene.

Our display had a great variety of antique outboards including a vintage British built Sharland, seldom seen in North America.
