

# Hasting Waterfront Festival- Aug 20

Article & Photo's: Dana Torch

Another successful display was put on by MLAOC members at the Hastings Waterfront Festival. Dave Teasdale and Dana Torch both brought a selection of different motors to display.

There was no shortage of people wanting to discuss the motors on display or their old fishing engine tucked away in the shed or basement. Several leads were procured, mostly for Mercury motors!

Sunny skies and warm weather made for a great Saturday.
